This article presents the report and results of the international collaborative study conducted to validate the international standard ISO 19344 / IDF 232, Milk and milk products – Starter cultures, probiotics, and fermented products – Quantification of lactic acid bacteria by flow cytometry.

Pages 48 – Paper 60.00€ - Electronic 54.00€

Bulletin of the IDF No. 479/2015 - A common carbon footprint approach for the dairy sector: The IDF guide to standard life cycle assessment methodology

In 2010, Bulletin 445/2010 (the first edition of 'A Common Carbon Footprint Approach for Dairy: The IDF Guide to Standard Life Cycle Assessment Methodology for the Dairy Sector') was published. The guide has now been reviewed and revised to reflect evolving science and standards in carbon footprint methodology and this Bulletin replaces Bulletin 445.

Bulletin of the IDF No. 480/2015 – The Contribution of School Milk Programmes to the Nutrition of Children Worldwide

Conducted jointly by FAO and IDF, with the support of Tetra Laval, this survey is the largest of its kind in many years. It provides an in-depth look at school milk programmes in the Americas, Asia, Africa, Australia and Europe.

The 60 countries who participated in the survey supplied a large amount of information on consumption, programme structure, nutrition, promotion, packaging, market value, administration and distribution.

Pages 230 – This Bulletin is free of charge and can be downloaded [here](#)

Bulletin of the IDF No. 481/2015 – The World Dairy Situation 2015

This authoritative publication contains chapters on milk production, milk processing, developments in the dairy industry in 2014/15, consumption, world dairy trade and prices. The Bulletin also features reports on 54 of the major producing and consuming countries containing statistical information and key developments as well as their main processors. There is also a statistical annex containing tables on dairy farming, processing, trade, consumption and prices.

Pages: 252 - Electronic: 250.00€

IDF Animal Health Newsletter No 9 – September 2015

This newsletter has been produced with the primary aim of providing information on the current activities in the field of animal health and welfare. It contains short descriptions of recent research, including summaries of PhD theses, current activities in the Standing Committee on Animal Health and Welfare (SCAHW), different projects and campaigns from member countries and more.
